- Pay/benefit distribution
- Leave tracking
- Payroll processing & history
- Employee Timekeeping
 - Time Card
 - Electronic Time Clock
 - Leave requests
- Employee scans/document management
- Security
- Reporting

Payroll Features

- Track employee demographic information, including job history, benefit history, payroll history, etc.
- HR tracking for employees, including certification hours, disciplinary actions, emergency contacts, etc.
- Prepopulate timecards with employee standard schedules
- Allocate employee time to multiple job codes and funds
- Payroll processing
- Track employee leave and benefits
- Track history of time entries and changes.
- Multiple step approval process for employee leave requests
- Scanning capabilities allow organizations to create a paperless filing system
- Ability to interface with the county auditor's office

Plus!

Infall Timecard eliminates paper timesheets by allowing employees to enter time worked and leave requests.

- Employees self-report daily hours with time distribution
- Supervisors approve time and make corrections
- Entries are immediately populated into Infallible
- Reduces data entry errors
- Leave requests are entered by the employee, submitted through the approval process. Employees may track the request status and outcome
- Electronic Time Clock add-on mimics the traditional time clock, enhancing payroll accuracy by limiting employees to real-time time entries

Schedule a demonstration for your team!
