

# A Guide to Adding Anywhere to a Device

This details how to add the Anywhere icon to a mobile device.

For Android Devices using Chrome:

- Launch the web browser of choice on the phone.
  - Once the Anywhere home page displays, select the ellipses button in the upper right-hand corner.
  - Then select “Add to Home Screen”.

For Apple Devices using Safari:

- Open the Safari browser and go to the Anywhere website.
  - Click the upload button at the bottom and slide the prompt box up until the ‘Add to Home Screen’ displays.
  - Once chosen, the icon will appear with the phone apps.
