Gatekeeper 2026.3.0 What's New

Anywhere Case Notes

Ticket	What's New
201,175	The Created Dates filter on the REVIEW NOTES page in Anywhere Case Notes has been updated so that users can effectively filter notes on the page by the date the notes were created.

Anywhere Employment

Ticket	What's New
199,574	If the user has the new Insert Positions security key for the Anywhere Employment window, a new + ADD POSITION button that allows users to add new positions will display beside the existing Position dropdown.

Anywhere Forms

Ticket	What's New
196,012	We've corrected an issue that was causing the Anywhere Forms page to not refresh correctly when selecting different individuals from the mini-roster.

Anywhere General

Ticket	What's New
88,906	For all roster types that display individuals' names, the individual's generation will now also be displayed.

Anywhere Plan

Ticket	What's New
199,766	Any integration with DODD's Salesforce platform that has been disabled by DODD has been removed from the Plan module in Anywhere.
200,279	We corrected a bug that prevented the email functionality within the Finalize Plan button from working if the individual’s name contained an apostrophe.
202,618	Several changes have been made to the Anywhere Plan module as a result of DODD shutting down the APIs that send data to DODD.
203,245	In the Anywhere Plan module, we removed buttons related to functionality that the state no longer supports, including Send to DODD, Assign Case Manager, and Download Plan.

Case Notes

Ticket	What's New
152,034	The 'Detailed Case Notes' report has been updated so that it now shows the generation field and hides the nickname.

Day Services

Ticket	What's New
200,261	We corrected a bug in desktop Day Services that could lead to billing units being doubled when users clicked the 'Errors' button on the 'For Review' tab.
